

Updating Airlink 2

Download the Airlink 2 updater

Follow this link:

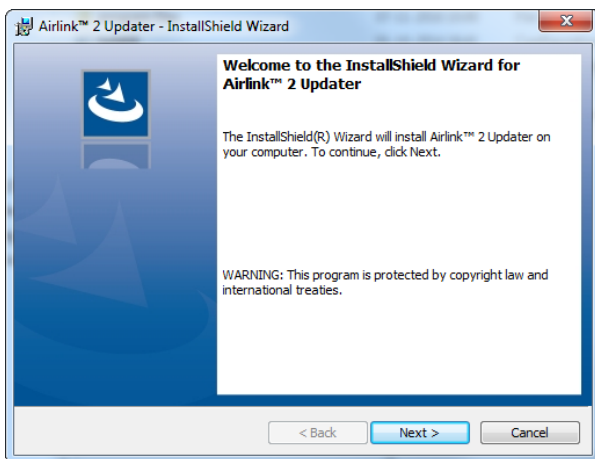

www.supportgn.com/files/airlink2updater/airlink2updaterinstall.exe

The installation file will now be downloaded to your computer.

NOTE: DEPENDING ON YOUR DOWNLOAD CONFIGURATION, YOU MAY HAVE TO CHOOSE WHERE YOU WANT TO SAVE THE INSTALLATION FILE

Install the Airlink 2 Updater

To install the update, follow these steps:

1. Go to the folder where the installation file has been downloaded and double-click the "airlink2updaterinstall.exe" file
2. Click *Next* and *Install* ...
3. When the installation ends, click *Finish*

NOTE: AIRLINK 2 PLACES A SHORTCUT ON YOUR DESKTOP FOR EASY ACCESS.

Connect Airlink 2

Connect the Airlink 2 to your PC with the cable.

Update Airlink 2

Follow these steps to update your Airlink 2 to the latest firmware version:

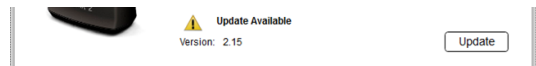

1. Double-click the *Airlink 2 Updater* icon on the desktop.
The Airlink 2updater will begin to search a connected Airlink 2 device.

2. The software retrieves information from the Airlink 2 device.

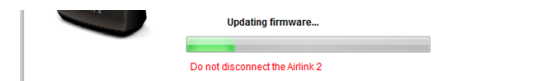

3. When done retrieving this information, click *Update*.

NOTE: DURING THE INSTALLATION, DO NOT DISCONNECT AIRLINK 2 FROM YOUR PC. THE LEDs MAY BLINK DURING THE UPDATE.

4. Update process is ongoing.

5. When the installation completes as shown below, disconnect the Airlink 2.

6. NOTE: IF YOU HAVE SEVERAL AIRLINK 2 DEVICES, YOU CAN CONNECT THE NEXT WITHOUT RESTARTING THE AIRLINK 2 UPDATER.

NOTE: IF THE UPDATE DOES NOT COMPLETE SUCCESSFULLY, PLEASE CLOSE THE AIRLINK 2 UPDATER AND DISCONNECT THE AIRLINK 2. RECONNECT THE AIRLINK2 AND RESTART THE AIRLINK 2 UPDATER AND REPEAT THE STEPS LISTED UNDER "UPDATE AIRLINK 2".

NOTE: IF THE INSTALLATION TERMINATED UNEXPECTEDLY OR IF IT DOES NOT WORK AS EXPECTED, CLICK *REINSTALL* TO REPEAT THE UPDATE.
